On the thirth day, we played a team game at the Central Market Hall. In addition to the adrenaline while performing tasks ,we were able to get to know each other better. We really liked this.

One of the coolest days was the fourth day when we visited Budapest in general. We sailed by ship and saw a lot of monuments. For example we saw the Millennium Monument or the equestrian statue of St. Stephen.

Climbing onto the mill wheel was an equally nice experience. It made a great impression on us.
